PRESS RELEASE:

Sharp Shoot R Precision Inc announces a great newly improved product the world's fastest black powder bore cleaner ! WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™. This is the first product of it's kind to address the issues of fast and easy cleaning a black powder firearm. We call this product 'PAINLESS' because of all the hassle that has been associated with the complicated and laborious task of cleaning these firearms. This revolutionary new product will completely clean a blackpowder firearm in 2 minutes or less. The product is the answer to this problem ! It's packaged in two convenient sizes:an 8 ounce non-aerosol flip top bottle, and a 14 oz aerosol. Ready to use on the bench or in the field.

The recommended use for WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™ is to apply it and let it set to dissolve the fouling from the barrel for 2 minutes The product has a working life of more than 24 hours. However, many shooters will find that they can clean a barrel completely, however in under 2 minutes. This can be a particuar advantage to those shooters who need a product that will clean in the shortest time possible because they have severe time constraints. The general blackpowder shooter falls in to this group because they all have minimal amounts of time to clean their firearms, and more importantly minimal amounts of patients. Black powder shooters know that just a few shots will force you to clean due to the degradation of accuracy. In these particular situations a faster, and easier method of cleaning is necessary.

WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™ was developed to answer those problems and many more.

WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™ is extremely easy to use. You soak a patch and push it down the barrel. While WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™ is still wet in the bore you simply patch out after 2minutes. If your second patch comes out clean, your done !

Our tests show that using WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™ will effectively dissolve much more fouling than any other method. There is absolutely NO BRUSHING. The barrel is cleaned with only patches. Or in other words WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™ work faster and easier, making cleaning a black powder firearm truly "PAINLESS".

WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™ is as safe to use for all metal finishes as well as both stainless steel and carbon steel.

WIPE-OUT 'PAINLESS' BLACK POWDER BORE CLEANER™ it self is a revolutionary new product that solves all the problems encountered with conventional black powder bore cleaners. NO more hot soapy water, or sloppy buckets. NO more endless brushing. NO harsh chemicals.

Loss of accuracy is normal in all black powder firearms after just a few shots. When these firearms get fouled without cleaning after they have been used in a prolonged shooting session, can be nearly impossible to clean in a single session. The barrel will become fouled with gun powder residue as a result of combustion, additionally: other materials are deposited internally to the barrel, carbon and metal fouling from bullet material, or plastic from the use of a sabot round. These are the most difficult to remove and are the greatest cause for the loss of accuracy in a firearm.

Most traditional black powder bore cleaners are in one of three categories: 1. Not effective and require large amounts of brushing, 2. Semi-effective, but containing large amounts of harsh chemicals, either acid and ammonia and require large

amounts of brushing. 3. Semi-effective but so harsh that the user is afraid to be in their presence without-a Bio-suit. These all are both messy and rather involved. Certainly they all require huge amounts of brushing.

Removal of fouling and carbon from the bore can rejuvenate and restore accuracy to and badly fouled firearm. Heavy amounts of brushing to the bore of a firearm can produce damage and un-necessary wear. New WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ was formulated to utilize technology in the safe removal of all types of fouling from the barrel faster, and more efficiently.....and without brushing.

The criteria for this new product WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ were a tough group to satisfy individually let alone collectively. Sharp Shoot R Precision developed this product with the aid and consultation of competitive shooters, gunsmiths, barrel makers, and manufacturers within the firearms industry. The resulting research and development team produced a revolutionary new type of cleaner:

- I. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ will dissolve bore fouling of all types twice as fast and in half the time without brushing.
- II. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ will protect all metal parts including the bore against corrosion & rust.
- III. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ is totally safe for all steels (both stainless and carbon)
- IV. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ is harmless to modern gunstock finishes. (it is not for use on shellac, varnish or oil)
- V. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ dissolves carbon without brushing
- VI. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ dissolves smokeless powder fouling, and black powder fouling, black powder substitutes and primer fouling.
- VII. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ has color indicators show the presence of metal fouling, powder fouling and carbon. (Metal fouling is navy blue, Powder fouling is grey or black, Carbon is tan or brown.)
- VIII. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ is odorless, relatively safe and easy to use.
- X. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ cannot gum or leave behind solids that render the firearm useless.
- XI. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ contains NO ACID and NO AMMONIA.
- XII. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ leaves a lubricant in the barrel that facilitates the easy loading of the next round.
- XIII. WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ penetrates underneath plastic fouling from sabotaged projectiles, loosens this plastic fouling so that it may be easily removed with a tight patch.

#### Operating instructions:

Apply WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ soak a cotton patch with liquid “PAINLESS” or apply the aerosol foam version, down the barrel. Wait 2 minutes and push a clean patch through the barrel . It’s just that easy. You may also apply a small amount to a patch for a quick pass thru the barrel, in between regular cleanings. Put the patch which has been wetted with the solution on a jag, and swamp it thru the barrel.. Black powder Cartridge fire arms may be applied from the breach end . Place the firearm down horizontally on the bench. Wait for 2 minutes. Put a clean cotton patch on a a good jag and push through the bore. The use of a bore brush is not necessary, ever. Additionally, for really stubborn fouling WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ may be left in the barrel as long as 24 to 36 hours.

WIPE-OUT ‘PAINLESS’ BLACK POWDER BORE CLEANER™ is available in a 14 ounce aerosol or an 8 ounce squeeze flip top bottle. And is manufactured and sold by , Sharp Shoot R Precision Products®. The product is available to all distributors, and dealers in this market area. For further information please contact Sharp Shoot R Precision Products® P.O. Box 171, Paola, Kansas 66071. Pho:785-883-4444 or by Fax at 785-883-2525, **Email: [getinfo@sharpshootr.com](mailto:getinfo@sharpshootr.com)** GRAPHICS ARE AVAILABLE IN A NUMBER OF FORMATS, IN BOTH COLOR, BLACK & WHITE AND LINE ART. PLEASE REQUEST WHICH ONES YOU NEED. SAMPLES ARE AVAILABLE UPON REQUEST ALSO.
