## PRESS RELEASE:

Sharp Shoot R Precision Inc announces a newly improved product the world's easiest nylon brushes to use ! This is the first product of it's kind to address the issues of using nylon bore brushes. Firstly, all the new brushes have female threads. It is not necessary to have a female adapter for your cleaning rod. 100 % of all nylon brushes have male threads. WHY ? It makes perfect sense to eliminate the threaded adapter. How many times have you not been able to use a brush, because you couldn't find the adapter? We call this product 'revolutionary' because of all the hassle that has been associated with the complicated and laborious task of cleaning these firearms. This revolutionary new product will make cleaning with a brush much more sensible. The product is the answer to this problem ! We are attempting to make sense of utilizing brushes. It's packaged in all convenient sizes Ready to use on the bench or in the field. The RUBY RED color identifies them as a Sharp Shoot R product.

SHARP SHOOT R RUBY RED NYLON BRUSHES w/female thread developed to answer those problems, and many more. They have the stiffest nylon filament available. They probably will never wear out !

Copper and bronze filament brushes give false readings when used with ammonia based cleaners. Shooters thought they were removing copper from the bore: while in reality it was coming from the brush. This is the reason we only use nylon. The bristles used in our brushes is the stiffest available. You get a more thorough cleaning without a false reading.

SHARP SHOOT R - RUBY RED NYLON BRUSHES with female threads are usable with all cleaning solvents. They are available for all rifle calibers, all pistol calibers, and all shotgun gauges. They are available in 5/40 thread for 17 cal, & 20 calibers and available in 8/32 for 22 cal, 243 cal, 257 cal, 264 cal, 277 cal, 284 cal, 308 cal, 32 cal, 35 cal, 375 cal, 41 cal, 45 cal, and up through 50 cal.

All our brushes are proudly made in the USA.

Manufactured and sold by , Sharp Shoot R Precision Products®. The product is available to all distributors, and dealers in this market area. For further information please contact Sharp Shoot R Precision Products® P.O. Box 171, Paola, Kansas 66071. Pho:785-883-4444 or by Fax at 785-883-2525,
