PRESS RELEASE :
HUSH™

ATTENTION: OUTDOOR WRITERS, EDITORS AND PUBLISHERS

REFERENCE: SHARP SHOOT R - HUSH™ Cleaner for Suppressors © by Sharp Shoot R Precision Inc.

PRESS RELEASE:

Sharp Shoot R Precision Inc announces a new product expressly aimed at a new group of shooters. This is the first product of it's kind to address the issues of cleaning suppressors. Please be aware that this product is 100% brushless. HUSH™ will dissolve all the fouling present in a silencer that defeats the suppressor from being quiet. It is not necessary to brush this product. HUSH will dissolve powder fouling and carbon. Simply fill the can with the aerosol product. The application will work in as little as 15 minutes, or with badly fouled suppressors you may let HUSH work 8 to 12 hours. **It makes perfect sense to clean a suppressor to improve the noise eliminating features.** How many times have you experienced that a suppressor was getting louder, the more you shoot. That is caused by excessive build-up of fouling from powder and carbon. We call this product 'revolutionary' because it is the first of its kind. We have taken out the complicated and laborious task of cleaning suppressor and cans. This revolutionary new product will make cleaning much more sensible. The product is the answer to this problem ! It just makes sense to utilize a cleaner for all suppressors. It will dissolve powder fouling and carbon in as little as 15 minutes. HUSH is packaged in a convenient size 7 ounce aerosol. Ready to use on the bench or in the field.

Using HUSH is not complicated. simply fill the suppressor with HUSH foam. The foam will clean most normally fouled suppressor in around 15 minutes or less. For heavily fouled suppressors you may leave the HUSH foam in the suppressor as long as 24 hours. One application will actually work for 72 hours. The product is anti corrosive and is not dangerous to any metals or plastics.

Removal of HUSH from the suppressor is not complicated. Simply flush out the carbon and powder fouling with water, or an air hose. Since HUSH contains several powerful anti corrosives, all metal parts are protected. Cleaning with HUSH will extend the life of your suppressor, and give you maximum hearing protection.
